SOCIALISTS IN THE SADDLE.
Milwaukee, April 19.—The Socialists municipal regime was launched this morning, when the Democratic administration of David S. Rose stepped out and the cohorts of Socialism, led by Emil Seidel, took charge.

Of the aldermen, with the five hold-overs who took their seats in the Council chamber, twenty-one are Socialists, and fourteen are divided between the Republicans and Democrats.

Alderman Melms was elected president of the Council. The Council elected the Rev. Carl Thompson city clerk. The Council then voted to send a committee of three, one from each party, to the Mayor's office to notify him the Council was ready to hear his inaugural message.

Amid the cheers of hundreds of Socialists crowded in the halls, Mayor Seidel walked to the council chamber, ascended the platform which was heavily banked with flowers, and began his message to his followers.

Conservation to a task of making Milwaukee a safe place for its men, women and children was the keynote of the inaugural address of Mayor Seidel. He took up in considerable detail the plan of the party for the next two years, but throughout ran the thread of the duty to the people of the city.

Care for the laboring classes, a reorganization of municipal finances, a municipal survey, to make possible the establishment of a sound economic system, placing of an expert in charge of public works, cleaner street cars and shorter hours for its employees, regulation of saloons, and abolishment of sin-cures such as water registrar, superintendent of bridges, etc., a new isolation hospital and a municipal electric light plant, are the special phases of the message.

CIRCUIT COURT DOINGS.

In its slow, monotonous way the Skinning Machine has been grinding. The army of poor devils in jail have nothing, and they who have are learning to walk around the Machine. Hence the lawyers may find slim picking. Up to the time of going to press the following happened:

Charles Koelzer and Wm. Williams discharged from parole.
Alvie Daily discharged from parole on grand larceny charge and permitted to go until next term on burglary charge.
Thurl Spradling, Clyde Porter and Ed Abernathy, paroled, reported and permitted to go until next term.

The various cases against Walter Kendall, of Sikeston, selling liquor to minors, dismissed.
Cases against F. J. Dannenmueller and George Metz failing to take oath and file bond not to adulterate liquor, pleas of guilty and stay of execution on payment of costs. The several who were fined for this offense the governor remitted the fines. But the cost—well, officials are not "serving the people" for their health. The part that is remitted would go to the people—to their public treasury. Great is justice!

Bud and Henry Beggs, of Ilmo, buying and receiving stolen property, tried by jury. The trial began Tuesday and on Wednesday the jury returned a verdict of guilty and fixed their punishment at two years in the pen each. Motion for new trial will be made.

The cases against Ben. Busby, burglary; Cecil Bowen, obtaining money under false pretenses; Press Elkins, gambling; W. T. Bentley, felonious assault and Frank Black, felonious assault, were continued.
Frank Walter, forgery, plea of guilty, two years, paroled.
Ed. Ivy, assault, fined \$25.
Elmer Stockdale, carrying pistol, fined \$100. Stay of execution during good behavior.

Garley Stevens, same.
Divorces were granted to Alma Carmichael and Annie Story, and 23 other divorce cases adorn the docket. But Socialism would destroy the home, they say.

SOCIALIST DOINGS.
Local secretaries should not neglect to collect the April installment of the money subscribed for organizer and forward same to me, Alex. B. Thompson, county secretary, Blodgett, Mo.

THE CLAUD HAY CASE.

When the Kicker learned of the trouble at Morehouse in which Claud Hay killed Dr. Hart, I felt sure that Mr. Hay would not act without good cause. While the stories circulated all seem to indicate no justification on the part of Hay, yet the Kicker has gathered enough to believe that Mr. Hay will be acquitted at his preliminary hearing Saturday.

While my information is not direct, yet I consider it reliable, and comes from three political friends of Dr. Hart. Some two years ago Dr. Hart met Mr. Hay and broke his jaw with a pair of knuckles, or thought to have been knuckles. After the recent election Dr. Hart announced that he would again whip Hay. And sent the word to Hay. Hay was in the habit of going to the depot to gather news for his paper, but for three days did not leave the house, but sent his wife. Dr. Hart was seen at the depot several times during this period and remarked that he was looking for Hay. A daryman told him he had better let Hay alone.

After the third day Hay ventured out. As he was passing a grocery store, Dr. Hart, who was inside, saw him, rushed out and called to him to stop. Hay turned and fired four shots.

HERE AND YONDER.

It is reported here that Bailey Wilkerson, whose auto killed Steve Rodgers, settled with the relatives for \$150. This does not prevent the grand jury from investigating whether or not Mr. Wilkerson is guilty of criminal carelessness. It is the public that needs protection. A few indictments against reckless driving might help some. The farmers automobile is the thresher engine. He has to stop when meeting anyone and help lead the team by. But he is only a work ox.

It seems cruel to mention it, but the late Tom Horton, of Blodgett, had a share of stock in the Court House Organ that cost him \$25. At public sale it brought \$4.50. No water in that stock. But it does seem that our best people could hold up the market value better than that.

The Kicker is having a "time," with some of its subscribers on former rural route No. 1, Commerce. All papers not otherwise ordered are addressed to Ilmo, Route 1, Commerce, has been discontinued, and I don't know where to address Gus Hilleman, Henry Roth, and so on, unless at Ilmo.

FROM NEW HAMBURG.

There was a petition circulated here Sunday asking for an election to bond the county for a new court house at Benton, but people did not seem anxious to sign it. Some believe it is only a trick of politicians to get people off the real question and get them to quarrel over minor matters. If we are to have a special election, why not vote to abolish the office of highway engineer? That is of greater importance to farmers than a court house. But, make the court house organ is running short of funds and needs another bailot job. You can lead a horse to water, but you can't make him drink. And very likely there'll be something doing next fall.

Lawrence Reichert and Anton Hahn, of the Shovelers Union, organized a strike while working for John Stike. Lawrence struck for lower wages and Anton struck the air. The next day Mr. Stike separated the two—putting Anton to work in the basement and Lawrence in the ditch—and the call for soldier to crush the strike cancelled.

THE SOCIALIST PLATFORM.
Adopted at Chicago, Ill., in 1908.
As measures calculated to strengthening the working class in its fight for the realization of this ultimate aim and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves, and our elected officers, to the following program—
1. The immediate government relief for the unemployed workers by building schools, by reforesting cut-over and waste lands, by reclamation of arid tracts, and the building of canals, and by extending all other useful public works. All persons employed on such works shall be employed directly by the government under an eight-hour workday and at the prevailing rate of union wages. The government shall also loan money to the states and municipalities without interest for the purpose of carrying on public works. It shall contribute to the funds of labor organizations for the purpose of assisting their unemployed members, and shall take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.
2. The collective ownership of railroads, telegraphs, telephones, steamboat lines and all other means of social transportation and communication, and all land.
3. The collective ownership of all industries which are organized on a national scale, and in which competition has virtually ceased to exist.
4. The extension of the public domain to include mining, quarries, oil wells, forests and water power.
5. The scientific reforestation of timber lands, and the reclamation of swamp lands. The land so reforested or reclaimed to be permanently retained as a part of the public domain.
6. The absolute freedom of the press, speech and assembly.
7. The improvement of the industrial condition of the workers by shortening the workday in keeping with the increased productiveness of machinery.
By securing to every worker a rest period of not less than a day and a half each week.
By securing a more effective inspection of workshops and factories.
By forbidding the employment of children under 16 years of age.
By forbidding the interstate transportation of the products of child labor, of convict labor, and of all uninspected factories.
By abolishing official charity and substitute in its place compulsory insurance against unemployment, illness, accident, invalidism, old age and death.
8. The extension of inheritance taxes, graduated in proportion to the amount of the bequests and to the nearness of kin.
A graduated income tax.
Unrestricted and equal suffrage for men and women, and we pledge ourselves to engage in an active campaign in that direction.
9. The initiative and referendum, proportional representation, and the right of recall.
The abolition of the Senate.
